

A COACH'S BUDDY TO ACCOUNTABILITY

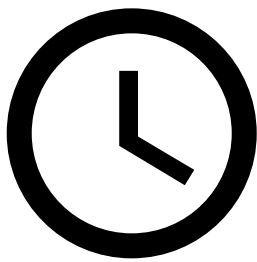

INCREASE YOUR VALUE **AND** YOUR CLIENT'S COMMITMENT.

1. THEY MAY NOT BE READY FOR YOU

Imagine a **system** that takes them through the basics of mindset and personal development on a daily basis, providing the foundation for your coaching.

2. THEY DON'T SEE YOUR **VALUE**

What if the leaps and bounds they make during their journey reveals the true value of what you do and you can get paid what you're worth?

3. YOU DON'T HAVE ENOUGH HOURS IN YOUR DAY

Would you like to be able to take on more clients without more time? How would that impact your **bottom line**?

4. YOU CAN'T HOLD TRUE ACCOUNTABILITY

If you have any semblance of a heart, you won't make that phone call to their mom when they **quit** on her. The system can. That's another level of accountability

5. THEY DON'T BELIEVE THEY CAN DO IT

The biggest challenge starting off is usually a low identity, or self-belief. Raise their **identity** here and increase their loyalty later.
