## **The 3 Devastating Mistakes That Trap Talented Professionals In A Soul-Sucking Job (and How To Break Free)**

**Josh Zepess**

Freedom Fighter and Creator  
Escaping the Rat Race Program

**Are you sick and tired of sitting in traffic only to be underpaid and underappreciated at a job you hate, knowing there must be a better way?**

**Does the stress of your desk and the emptiness of your bank account make you feel like there has to be another path to success and happiness?**

**How many more days can you keep doing what you're doing while hoping for something better? What if it's not too late to change?**

If any of these questions are resonating, I want you to know you're not alone.

I was stuck in the rat race for 20 years. Two decades of staring at gray walls, being on my best behavior, thinking I was doing everything right as I climbed the ladder to "success". Then one day I found out that everything I thought was right, wasn't so right. I wasn't wealthy. I wasn't happy. **I wasn't free.**

So I planned my escape. Within four months, I was able to make more money part-time following my passion for educating families than in my full-time multi-six figure job. Then I fired my boss and was on my way to Freedom. I was so blessed to be able to create my wealth doing what I love, that I started teaching others how to do the same.

That's why I decided to share my best secrets on how to escape the rate race and break free from the shackles of a life and job that don't fulfill you on my upcoming complimentary webinar called

**The 3 Devastating Mistakes That Trap Talented Professionals In A Soul-Sucking Job (and How To Break Free)**

- How to create wealth and happiness - from right where you are, that will create an easy on-ramp for you to choose your next move from an empowered place
- The most important perspective you must take to elevate your mindset above the average person you spend time with at work (like the crab metaphor they unconsciously don't want you to get out!)
- My #1 secret to getting paid what you're worth in life (from any position)
- How to escape the pointless, endless, and self-defeating job cycle once and for all so that you may achieve the freedom of time, energy, and money that you kill yourself over every day.

Imagine dis-covering your true purpose, monetizing your passions and talents, all while experiencing the happiness and fulfillment that results from the journey of becoming the best version of yourself. Would that be a life worth living?

In this 1-time webinar I will share with you how we get trapped in the rat race and a few critical distinctions for how to get out that will immediately change your life... whether you are in corporate America or are just tired of the endless, pointless, self-defeating pursuit of the American dream..
