

WHAT HAPPENS WHEN YOUR EMPLOYEES ARE  
HAPPIER, HEALTHIER, AND WEALTHIER?

# CORPORATE ROYALTIES

## WHAT'S REALLY GOING ON IN THE WORKPLACE?

66% of employees are disengaged at work (Gallup Poll)

57% of people say that if their employer proactively supported their mental wellbeing, it would help them to feel more loyal, be more productive and take less time off work (Health Shield)

Saving for retirement, paying for children's education and handling basic living expenses are negatively impacting the workplace through stress (79%), lack of focus at work (64%), physical health issues (36%) and absenteeism (34%) (IFEBCP)

Workers who are finding balance between their jobs and personal lives are twice as happy, more productive and show greater loyalty to their employers than those struggling to find balance (Robert Half)

90% of employees said that struggling with mental health issues stops them from thriving at work and performing to the best of their ability (Health Shield)

If offered financial programs at work, 89% of Gen Xers would participate in them (Purchasing Power)

Do you care about your employees as much as they care about your company?

**They may not take their work home, but they take their home to work. To believe that financial, relationship, health, and emotional stress does not come with them to your company is at best naive, at worst putting you out of business - not good for all involved.**

They're not lazy, unmotivated, or tired, they just don't think you care. To get the best out of someone, you must give the best first.

## CREATING ROYALTIES IS A SIMPLE PROCESS

We survey staff for top hot buttons that are holding them back.

We train bimonthly, real personal development.

We hold them accountable on personal level.

You, your staff, your clients, and our economy win.
